

Devmountain 2019 Outcomes Report

Introduction

Don't sell yourself short. Your time is valuable, and your decision can change the rest of your life. This report comes from our commitment to help you make a good decision. Accordingly, the information provided relies on two-factor verification of each graduate's self-reported outcomes.

Before you read on, there are things you should know. First, though we reached out to all graduates in the reporting period, only those who responded are reflected in these results. Second, many factors will determine results, and Devmountain cannot guarantee any job, salary, promotion, or other career outcome. Your life and future are unique. We encourage you to do your own research beyond this report.
